## GRILL'D

---

The tagline 'Healthy Burgers' is an eye catcher from a fellow burgerholic and upon leaving, did not regret my decision. The restaurant is an order at the counter and table service establishment with multiple locations, making it easily accessible to visit.

An intriguing element is the bottle cap each individual receives with their meal. Grill'd supports three community groups each month and creates a feel-good and fun experience whereby you choose the winning group for the donation.

The menu boasts about the quality fresh ingredients sourced from local suppliers that definitely deliver on the taste. It's the ideal venue for lunch with friends after a hard days shopping, or dinner after the thrill of a movie. Other options available include a selection of veggie burgers, salads and a kid friendly menu.

## Yummy Choices

**Simon Says on a Traditional Bun**~ Grilled Chicken Breast, Avocado, Crispy Trim Bacon, Salad, Relish & Herbed Mayo

The burger arrived clean, each ingredient given the care and time to be placed on the bun. I loved hearing the crunch of the lettuce, reiterating the freshness and each element had a purpose.

### **Sweet Potato Chips with Herbed Mayo Dip**

The sweet potato chips came out hot and well-seasoned, marrying the mayo dip. I also liked the share plate option, perfect to cater for a group.
