

The Yummy Times

August 2015

The Vogue Café

Neighbouring the car park and Myer is **The Vogue Café**, a welcoming kitchen offering an all-day breakfast, lunch and beverage menu that pushes the boundaries of creativity. The adoring dainty table decorations and dimmed lighting add to the quaint experience.

Arriving at 3pm, the busy café was full, however I was only required to wait a short time to be seated. Wait staff were friendly and seemed to genuinely care about my experience. I believe this spot is perfect for a quick catch up with friends over good food.

Yummy Choices

Avocado Open Grill

I ordered from the Grillin' It category and was served smashed avocado, sliced chicken breast and cheese on ciabatta bread. The Vogue Café prides itself on using fresh and organic ingredients. The chicken breast was succulent and accompanied the natural avocado. However, the cheese was a heavy element and could do without if looking for a light meal.

O Pop That

The novelty of the café is the alluring beverages, plated immaculately. If you are looking for a healthy lunch option, steer clear of the beverages menu!

This masterpiece is a rich hot chocolate consisting of Belgian chocolate, Oreos, malt and Snickers, topped off with caramel popcorn, marshmallows and drizzled chocolate; just in case there wasn't enough.
